

# Brick Excellence

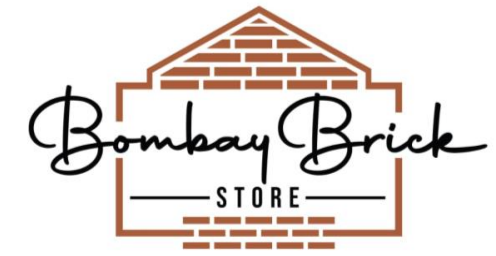

The V House - The Brick Tales

[sales@bombaybrickstore.com](mailto:sales@bombaybrickstore.com)

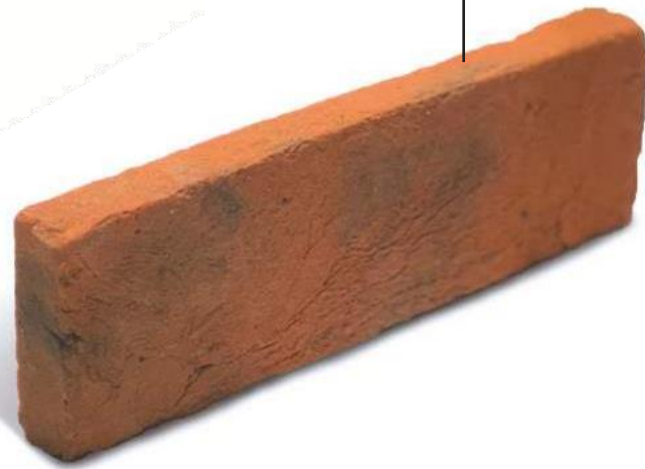

# Formats

India's widest range of facing bricks.

Traditional:  
A range of genuinely handcrafted bricks, manufactured using the traditional technique of brick making.

Cladding:  
Cladding Bricks are a smart alternative to achieve an authentic brick wall look on existing walls. These bricks come in a thickness of 20-25mm, making them very light weighted and easy to apply.

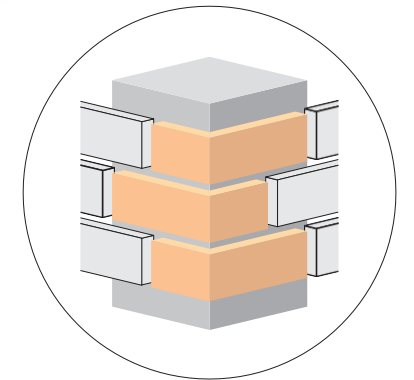

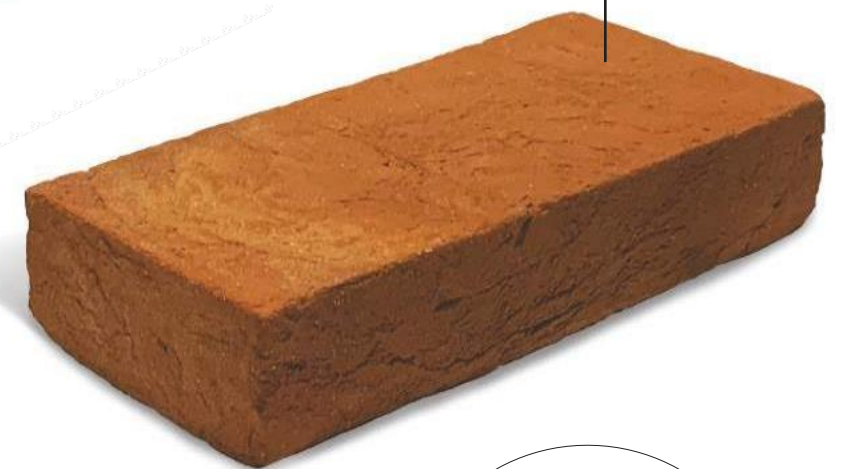

Linear:  
With their peculiar dimensions - the length of more than ordinary bricks but only 50mm high, Linear bricks resemble ancient Roman Bricks and create a rustic and sophisticated look.

Extruded:  
Manufactured by the world-renowned extrusion technology in our brick factory with the know-how from Europe, Extruded Bricks are visually pleasing and complemented by high strength.

Dutch Size Brick:  
Dutch size brick is known to catch the viewer's attention for its special shape. This Dutch sized brick intends to give a unique assemblage to the aesthetic of the wall.

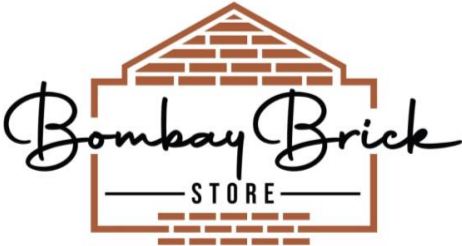

L-Corner:  
L shaped corner slips, used with brick slips on external corners to provide a seamless look and give the authentic impression of a solid brick wall.
